

The Director Cloud Identity & Privacy Services | Azure Active Directory | Cloud and Enterprise Group | Microsoft Corporation,

**Sir Ronny Bjones** validated our first legal signature Cloud Computing at the Summit of the Cyber Security Madrid this week. This legal signature is guaranteed with 99% of security and legal validity.

He says: "Trustseed signature is a high light of Madrid Cyber Security Summit. It showed new advances how specialized cloud based trust services can make it easy for relying parties to incorporate complex signature scenarios: trustseed was the winner of last year's TDL Sprint award (Trust Digital Life <http://trustindigitallife.eu/>)
